AGENDA ITEM	DISCUSSION	ACTION OR FOLLOW-UP
I. Call to Order-Salute to the Flag	Dr. Noel Chun opened the meeting and led the salute to the flag.	
II. Public Discussion	<p>Dr. Chun asked if any member of the public would like to address the Board on any issue not on the agenda.</p> <p>Mr. Geoff Gilbert stepped up to the podium and stated that he is concerned with the initial drawings of the campus that includes the loss of the green space next to the hospital and will be replaced with a large structure. He continued that he does not want to have a large building or parking lot built in front of his home. He is concerned about the discussion of turning Diamond Street into a service road. He hopes that designers will take the concerns and restructure it to keep the green space the way it is.</p> <p>Ms. Mary Drummer stepped up to the podium and stated that she is here to add to the letter submitted to the board last month regarding the lack of transparency and cooperation from LA County West Vector Control District. Her main mission is to educate on why this matters. She stated that they have trained extensively for over a year to participate with several LA Vector Control Agencies for the mosquito problems that have been reported. Her vision was to aid and bring in services and resources</p>

	<p>to the South Bay. She was repeatedly told this was not possible because Mr. Saviskas does not cooperate with anyone else in the state and because of the independent nature of his district, he only answers to his board.</p> <p>Surveying the West Vector Website reveals that they do not timely post the date, time and location of upcoming board meetings and there is no functioning link to the agenda or minutes of previous Board Meetings. She continued that they post the same agenda for every single meeting and this is a violation of the Brown Act. She is asking BCHD to assist in bringing awareness and resources to the South Bay.</p> <p>Ms. Rebecca James stepped up to the podium and stated that she would like the first guiding principle that states include a community for older adults to be omitted from the list. She feels strongly that this is not needed in the community and that the Board needs to be responsive to the voters. She believes that there are other 21st century solutions that can support aging in place. She is asking to please consider the request to take out the first guiding principle and consider other options besides building a community for older adults.</p>	
<p>III. Appointment of Board Members to BCHD Committees</p>	<p>Dr. Chun announced the following appointments of Board Members to the BCHD Community Health Committee: Vish Chatterji as chair and Dr. Michelle Bholat as second chair.</p> <p>Dr. Bholat and Mr. Chatterji concurred their appointments</p> <p>Dr. Chun announced the following appointments of Board Members to the BCHD Finance Committee: Jane Diehl as chair and himself as second chair.</p> <p>Ms. Diehl and Dr. Chun concurred their appointments</p> <p>Dr. Chun announced the following appointments of Board Members to the BCHD Policy Committee: Vish Chatterji as chair and</p>	<p>Ms. Chatterji concurred his appointment as chair and Dr. Bholat concurred her appointment as second chair to the Community Health Committee.</p> <p>Ms. Diehl concurred her appointment as chair and Dr. Chun concurred his appointment as second chair to the Finance Committee.</p> <p>Mr. Chatterji concurred his appointment as chair and Ms. Poster previously</p>

Dr. Bholat, Ms. Diehl, Dr. Chun and Mr. Chatterji voted yes. Ms. Poster was not present. Motion Carried</p>

AGENDA ITEM	DISCUSSION	ACTION OR FOLLOW-UP
<p>IV. CEO Report</p> <p>A. Chief Executive Officer</p>	<p>Dr. Chun Invited Mr. Tom Bakaly, Chief Executive Officer, to address the Board of Directors</p> <p>Mr. Bakaly referred the Board to the written report.</p> <p>Mr. Bakaly highlighted the following:</p> <ul style="list-style-type: none"> • Recommending the board amend the guiding principles to reflect the evolution of the project • Launching study circles on specific topics like intergenerational programming and creating community gathering places • Reconvening the Community Working Group to help us take a broader look at the campus • Convened student mental health task force for the first time with roughly 45 community partners in attendance • Held two Families Connected Speaker Series events in partnership with three school districts and South Bay Families Connected with more than 600 people in attendance • Next speaker series event is on March 20th at Hermosa Valley High School • Honored to have Mr. Dan Witters here to share the 2017 findings from our bi-annual Well-Being Index survey in the Beach Cities • Nearing the launch date for our Healthy Minds Initiative and just awaiting approval from the Loma Linda University Medical Center Institutional Review Board • Special thanks to Ms. Kerianne Lawson and Ms. Melissa Andrizzi-Sobel and their staff for all their hard work on this initiative • Working on the 15 year financial plan and building a financial model the board will be able to look at to apply scenarios regarding different scenarios

He continued that they find that exercise, healthy eating and positive relationships are inversely related to stress.</p> <p>Dr. Bholat asked if we can choose one item to look at and focus on what it would be. Mr. Witters stated that he would choose having leaders deliver these messages: (1) well-being is important and part of our culture and will never ever go away, (2) have all of our leaders describe well-being with a consistent definition, (3) have leaders set policies inside the organizations on what food is being catered from, what expectations are in volunteerism and community events, (4) make people feel like they authentically care about their well-being, and (5) holistic well-being</p> <p>Ms. Rebecca James asked how they will differentiate between smokers of tobacco and smokers of marijuana, to which Mr. Witters stated that the Well-Bing index does not poll for this specifically, but does ask if people smoke.</p>	
B. Legal Council	Mr. Lundy reported that there was nothing to report.	
Healthy Living Campus Update	<p>Mr. Tom Bakaly highlighted the following:</p> <ul style="list-style-type: none"> • In the Study Session in January, we provided an update and the Board gave direction on staff taking a broader program look • One item discussed was the guiding principles • Staff suggested that based on what we were hearing from the community and experience over the last year, we suggested adding some which include: <ul style="list-style-type: none"> ○ Incorporate intergenerational programs and broad community benefits ○ Voluntarily and proactively mitigate structural risks ○ Pursue community partnerships ○ Integrate campus with surrounding community 	

AGENDA ITEM	DISCUSSION	ACTION OR FOLLOW-UP
	<ul style="list-style-type: none"> ○ Plan campus holistically, considering all district assets ○ Align campus design with community health snapshot report ○ Grow continuum of services to help older adults age at home for as long as safely possible <ul style="list-style-type: none"> • Staff feels these would be appropriate principles for the Board to consider <p>Mr. Bakaly invited Ms. Kerianne Lawson, Director of Life Span Services up to the podium to speak about how community services programming relates to the Healthy Living Campus and its goals.</p> <p>Ms. Lawson highlighted the following:</p> <ul style="list-style-type: none"> • In the Community Services department we have social workers and do assessments of seniors and senior adults across the three communities, and develop a care plan to support them in their home • Our care Managers are able to walk with people as their needs change over time • Average length of stay tends to be about 3-4 years but there are people who have been with us for 15 years • We see about 430 unduplicated people in any given month • We are concerned about the growing need in the community and our bandwidth to support that need <p>Dr. Chun commented that he liked the principle stating 'grow continuum of services to help older adults age at home' but it's something we would need to work on a little more. He continued that it's important to emphasize that what we are trying to develop is a center of excellence for older adults.</p> <p>Mr. Chatterji stated that we should think of grouping them into 3-5 principles at a higher level. Mr. Chun suggested having the Working Group work or Strategic Planning committee work on this.</p> <p>Mr. Geoff Gilbert stated that affordability is something that is not being heard in the</p>

	<p>discussion on the project and it's something that should be brought up.</p> <p>Ms. Rosanne Taylor stated that the last time the board met there was conversation about earthquake retrofit and how it could change the project, and now it comes back that this project is going to be built and she wants to clarify if this that is what is happening. Mr. Bakaly responded that we are looking at this in a very broad level and no decision has been made on what we will be moving forward with. Through the Community Working Group we will have several options on what this campus could be that will be brought back to the Board and to the community. Ms. Taylor wanted to clarify her question and ask if a new assisted living building would be built. Mr. Bakaly stated that this decision has not been made and we are working on a taking broader look at the project.</p> <p>Mr. Chun stated that with our Guiding Principles we are looking at redeveloping our campus. We have done preliminary investigations to retrofit the building and it is not financially viable since we would have to repair all systems for heating, plumbing, and HVAC while having the building occupied. We are probably going to do a multi-stage redevelopment because the campus needs to be redeveloped since it is not sustainable the way it is. Mr. Chatterji added that part of the reason to slow the project down is to take a look at what our 15 year outlook is and how do we continue to provide services to continue the mission. We are slowing down to take a much deeper look through a financial viewpoint, a community needs assessment viewpoint and local requests from community members. He continued that we are considering it all, so there are multiple options on the table.</p> <p>Dr. Chun added that not doing anything is not an option since it's not in sustainable and functional shape. Mr. Bakaly added that we will demonstrate the impacts of that and make sure the Board has that information from a financial standpoint. Ms. Diehl added that the questions will be answered with the 15 year financial plan because we need to be sustainable and Ms. Poster previously has said that we are looking at doing something that will hopefully last for</p>

	<p>another 50 years. She added that sometimes it's difficult for people to remember that without the money we cannot provide services, so we have to look forward on how it all fits together so we can continue to provide services because that is our mission.</p> <p>Ms. Rebecca James stated that in the last meeting, information was given about a possible earthquake retrofit and it sounds like now it is not possible to retrofit this building. At the last meeting it was stated that there was going to be a report from the engineers and asked if this report been received and considered by the board. Dr. Chun stated that we are working on the financial model which is something we will need if we do a stage-development of this property and how it will affect cash flow, what the cost would be and how we will stage that without having a significant impairment in our ability to provide services. Mr. Bakaly added that this is something we will be showing when we provide all the options to the Board that will connect to the financials. He continued that we are hopeful that we can bring all the options with financial costs in the next 6 to 9 months. Ms. James added that with conversations with state level employees, a LAFCO review could be requested if there is a plan to serve anyone outside of the boundaries of the district. She continued that those that are opposed would ask for a LAFCO review if they think this is going to happen.</p> <p>Mr. Bakaly stated regarding LAFCO, we can provide more information regarding this and invite a member from there to hear directly from them if needed.</p> <p>Dr. Bholat added that the next time we present anything regarding the project to the Board, we should have financials and options so people can see it. Dr. Chun agreed.</p>	
<p>VII. Activity Break/Mindfulness</p>	<p>Dr. Chun called for a break.</p> <p>Mr. Chatterji led the group in a mindfulness activity break.</p>	
<p>VIII. Committee Reports</p>
